

'Pay As You Use' Models

If you are an employer and are using the OLIM Online service to establish your workforce training needs, you may be able to access the OLIM Online service without charge. Please use the following email address to find out more: info@olimonline.co.uk

For other organisations, provision of the OLIM Online workforce analysis service is flexible and payment for the service can be arranged in two main ways.

1. A pay per deployment basis, where a charge is made for each deployed survey (with a minimum initial set-up charge for development work). This is usually accessed whilst you try the service out with existing clients and a price guide is shown below.

Survey Size	Survey Value per Individual Survey Recipient Min. £750 (Exc. VAT)
Up to 1000	£2.50
Up to a further 4000 (5000 max)	£1.50
Up to a further 5000 (10,000 max)	£1
10,000+	50p

2. A fixed term agreement (6 or 12 months) where a monthly fee is agreed based on your schedule of deployment.

For example, you may wish to run:

- workforce analysis with a selection of target companies/clients monthly, quarterly or twice yearly
- customer feedback internally or with a number of clients scheduled over the course of a year
- appraisals internally or with a number of clients over a rolling business year

Monthly Deployment	Monthly Value (Exc. VAT)
6 months fixed term	£6,000
12 months fixed term	£5,000

The OLIM Online Service Outline

The OLIM Online service that you receive includes:

- Use of the web-based service to host and perform data collection, analysis, reporting (referral where requested) and storage.
- Options to fully tailor and customise survey/data collection templates for your own or your clients usage
- Aggregated and individual level survey/data collection outcome reporting
- Tailored online reporting for each individual project run for you and your clients
Eg. Skill Surveys mapped to company and funding body regions and areas
- Assigned account manager for your ongoing project work
- Full survey/data collection deployment support – consultation visits made available to clients as required and provision of all elements needed to deploy any survey or data collection project. Fully outsourced solution.
- Technical support team and deployment telephone helpline
- Ongoing hosted service (for clients requiring access to reports and surveys/data collection forms on a longer term 'managed' basis) – provided with 6 and 12 month agreements
- 'Unlimited' monthly deployment capability – charges for 6 and 12 month agreements enable up to 5,000 deployments per month within the standard monthly rate.
